DETAILED ACTION

Allowable Subject Matter

1. Claims 1-41 are allowed.
2. The following is an examiner's statement of reasons for allowance: The present invention is directed to a method for using Internet Protocol Measurement Protocol (IPMP) packet. The prior arts in the record fail to teach or make obvious to a method comprising receiving by the first remote network device the IPMP measurement test request packet indicating a type of test that is requested by the measurement host within a structure of the claim. These features are claimed in the independent claims 1, 10, 38 and 39 and render them allowable. The prior arts in the record fail to teach or make obvious to a method comprising the IPMP echo request packet including one or more data fields from a redirect options data section of the IPMP measurement test request packet into a header of the IPMP echo request packet and an identification data element, inserted by a sender device, identifying the sender device as a redirect measurement host within a structure of the claim. These features are claimed in the independent claims 18 and 40 and render them allowable. The prior arts in the record fail to teach or make obvious to a method comprising receiving an Internet Protocol Measurement Protocol (IPMP) packet, which includes an address of the measurement host device as a source address, an address of the first remote network device as a destination address, a flag indicating the IPMP packet is a redirection request packet, and a predetermined field with an address of the second remote network device as a redirection address to which the IPMP packet is to be redirected within a structure of the

Art Unit: 2464

claim. These features are claimed in the independent claims 34 and 41 and render them allowable.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
